# Gemini South Semester 2011B

The semester calendar shows multi-instrument queue nights, scheduled classical runs and engineering or commissioning blocks. Instruments potentially usable on queue nights are indicated by the colored-horizontal bands (see color key below). Note: ToO PIs should always check the "what's available now" pages that are linked from the contents list for the most up-to-date information. Scheduled classical runs are indicated by the last characters of the program ID, e.g., "C-1".
Engineering or commissioning blocks are shown across all rows as no queue execution is expected those nights.
New and full moon dates are shown on the left.
